Mr. James Newell  
Vice President  
Prime Time Transportation, Inc  
9003 Tara Boulevard  
Jonesboro, GA 30236

Dear Mr. Newell:

Thank you for your filing on the U.S. DOT Docket Management System on November 12, 2002 requesting the Federal Motor Carrier Safety Administration (FMCSA) to remove a crash from our safety analysis of your operation. Based on the information you provided, the crash occurred on August 13, 2001 in Kings Mountain, North Carolina.

We have reviewed your request and understand your concern; however, the Federal Motor Carrier Safety Administration (FMCSA) relies on the States to supply us with inspection and crash data. Consequently, FMCSA cannot remove any crash or inspection data unless it is first resolved by the State.

Please contact the appropriate State office(s) based on the location of the crash of concern. A listing of the State contacts and phone numbers is enclosed. Once a State office makes a determination on the validity of a challenge to a safety event, FMCSA considers that decision as the final resolution of the challenge. FMCSA cannot change State records without State consent.

If you contact a State office and receive no response to a request within 30 days, you may contact us and we will coordinate with the State to determine the reason for the delay.

Concerning your request for us to update your SafeStat information, our standard procedure is to produce updated figures on a monthly cycle, generally during the first week of every month. When updated or modified data are received during a given month, they will be reflected in the next monthly update.

We appreciate your continued concern for the safe operation of your company's trucks and drivers.

Sincerely yours,

Terry Shelton  
Director, Office of  
Information Management

Enclosure
